RE: Docket#: E-01345A-07-0663 / T-01846B-07-0663

DOCKETED BY 

Dear Judge Harpring, Commissioners.

It is apparent that the importance of having the underground utility conversion for Hillcrest Bay has caused a few homeowners here to be very resistant to change.

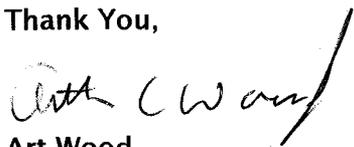

Even when it is obvious that the benefit to our community of having a new underground utility cannot be denied on an improvement to our quality of life basis, to the effect on the surrounding environment, the relative low cost to everyone compared with what this would likely cost in the future.

It seems clear to me that we need this project while we have the chance. It will provide jobs. The cost will probably not catch up to anyone until late 2010 or 2011. By then our economy will have had time to improve.

This is truly is an important improvement for Hillcrest, one that is not likely to be available again anytime soon or at this very low cost.

Please approve this UCSA project. My lot number is 310-32-062.

Thank You,

Art Wood
