Subject: Railroad "Quiet Zones" in Flagstaff

I am a long time Flagstaff resident, and quieting the train horns has been a dream of mine for many years. I have watched the ongoing project with great anticipation since its inception, and participated whenever possible to ensure that things moved forward. I have argued with neighbors about what's "fair" for us on the East side of town, spoken to city council members in and out of public meetings, written many letters to the editor of the local paper, and regularly contacted Randy Whitaker to see how things were going.

My main goal has always been to make sure things are moving forward.

I do not know anything about the Arizona Corporation Commission, how decisions are made, or what happens at a hearing. I do not know if public input is helpful or completely irrelevant and ignored. I would be happy to attend the July 8 hearing in person to represent the many of us that want these changes to happen, but only if my presence was useful in some way. Please let me know if there is anything I can do to help move this project forward.

Thank you for your time,

Tim Gales
