Once again I have received a letter from the same owner, this is the third or fourth, suggesting that I should write a letter to you, for you to remove my name from the petitions and stop supporting this project. **Sorry, I support this project!**

This same writer has in each of these letters seemed to make false statements about the underground in this attempt. It would be very sad if some of the petition signers have been swayed by this and mostly if the Commission allows their signatures to be removed.

Were not the petitions that we signed legal documents? I seemed to remember that there was some sort of time limit in which those who changed their mind could have their signature removed from the petition. Hasn't that time passed? If the petition signers can just remove their names anytime, then why have a petition process. In an election, voter can't just change their vote because they want to, two, six or ten months later or anytime.

I know that the majority of owners supported this when they signed the petitions as I did. I hope that this effort to greatly improve this community is not a wasted effort and that Judge Harpring and our Commissioners follow through with the will of the owners, who signed the petitions expecting this to happen and approve the underground project.

Sincerely,

Bob Strong
