Dear Corporation Commission,

I am writing in favor of the proposed underground utility project. The current poles are weakening and inaccessible with the new building practices within Hillcrest Bay. The new metal poles that have been placed street side at new construction sites are even more obtrusive and unsightly than the old wooden ones. I'm sure the underground utility project will be a financial burden for most (myself included) but it seems there are some options and payment plans available. The project, I feel, will enhance Hillcrest Bay and in the long run be a visual and monetary benefit to all.

Sincerely,

Catherine Roustan
