Dear Judge Harpring and Commissioners,

The underground conversion opportunity that Hillcrest Bay has at this time is extremely important. Most of us realize that it is pretty much now or never to get this done. That is why your decision on this matter in the next few months will have such a long term effect on the environment here, for better or for worse.

This is a small community in a mostly natural environment. The original 273 parcels are surrounded by mountains, a lake and a national wildlife refuge. If you reject this project, the result in time will be a total of 111 telephone poles. One pole for every 2+ lots, not to mention the mass of strung lines that will be hanging over our heads, streets and homes.

This would be an unnecessary environmental detriment lasting a very long time.

Please take the long view, the environmental view and approve this worthy project.

With the greatest respect,

*Paul & Carol Pudewa*
