Subject: Solar

Dear Chairwoman Mayes:

I urge you to rule favorably on allowing solar generators installed on munucipal and non taxable entities,(eg schools), to be done so without regarding these generators as a regulated utility.

A ruling in favor of regulation would greatly hamper alternative energy in our state.

The most oft asked question I get is why Arizona does not have more solar.Its seems a natural for the state given the degree of solar irradiance we have here.I never have a good answer.

Thank You,

Brian C Baker
