Subject: Comments on Docket No. E-01575A-08-0328

Dear Chairman Mayes:

I am writing on the subject of the SSVEC proposed 69 kV line and substation.

For background; my wife and I have been residents of Sonoita for over 14 years. I strongly support the efforts of SSVEC to build this much needed line and substation as the community experiences to many outages, voltage variances, and the electric service is not as reliable as it should be. I have studied this issue in depth to include mane of the alternatives and have determined that this new line and substation is the best viable alternative to solve these issues. I also feel that the majority of the citizens of Sonoita agree with the need for this new line.
