Docket#E/01345A/07/0663 & T/01846B/07/0663

Dear Arizona Corporation Commission,

It's been three years since I've moved into my home at Hillcrest Bay. I am a supporter of the Underground Conversion Service Area because when I look out my window I see this.....

If I can have this unsightly transformer removed from my backyard as well as the many overhead lines of wires crossing all around my corner lot it would provide a better quality of life to me. Approving this project would greatly improve this community. The investment in this type of upgrade can only bring positive results for us long term residents. I want to see Hillcrest advance in new technology not remain back in 1972 or continue to put up with our power turning off at least once a week. I want the value of my home to appreciate along with the surrounding neighborhood and communities. This will be a one time opportunity for all of us to really afford it.

Thank you for your consideration,

Scott Babcock
