Re: Docket numbers: E-01345A-07-0663 & T-01846B-07-0663

Dear Arizona Corporation Commission:

I believe our community will truly benefit in having the underground project approved. It would be a great improvement to the quality of my life and my family.

Hillcrest Bay is a gem in the hillside overlooking the beautiful Lake Havasu and it's a shame that all the wires, transformers, and telephones poles were not constructed underground when this community was developed. I can't imagine 111 more poles coming into an already antiquated system.

I am in support of this project and I hope that you will approve it. Affordability? It won't be unless we do it now.

Sincerely,

Don Clark
