Subject: RE: Request for Update on Vail to Valencia Line Siting

1st meeting

Shannon,

In my recollection of the meeting we had, I stated that Avatar would prefer the transmission line to be east of the UPRR which was the preferred alignment by Unisource. It might be compatible with the current use, however, we hesitate to have the transmission line go across the leased grazing land due to the possible future State Park.

Subject: Request for Update on Vail to Valencia Line Siting
Importance: High

Greetings, Sheila. Wanted to follow-up on our discussion of the West side of the railroad. When we met June 19, you and Bill wanted to confirm with Florida HQ about Rio Rico's position regarding potentially siting a portion of the transmission line west of the UPRR once the alignment crosses Pendleton. You indicated that it was compatible with current use as leased grazing land. However, before Rio Rico Properties could make a position firm, you wanted to ensure the line's compatibility with future conveyance to AZ State Parks.

Any update on a firm position?

Many thanks,

Shannon
