Re: Reinstatement of APS free line extension

DOCKETED BY

Dear Commissioner Mayes:

I hope this letter finds you well. We are aware that you intend to vote against the reinstatement of the free APS 1000 foot line extension. With the condition of our current economy, it is time that we stop adding unfair demand to our developers and contractors. We need to be good partners, especially in rural Arizona and not target the life blood of people that can help stimulate our economy. It is time to be less subjective and stop thinking about increasing revenue streams as the only way to support our utility companies - we must strengthen our partnerships and work together. I do not understand your statement that you made when it was agreed to remove the free line extension that it "was a fundamental issue of fairness". There are not the wildcat developers and lot-splitters - those days are gone and it is time to help the people that want to build, live and support our area and state. The days of massive building are gone, so I am asking that you please rethink your veto vote and let's work together to start managed development and growth again. By reinstating the line extension, urban sprawl will not be created, and I am asking for your support and partnership and stop shifting the burden of growth to citizens who are builder-owners, builders and developers.

Respectfully,

Sandra Griffis  
Executive Director
