DOCKETED BY 

Re: Reinstatement of APS free line extension

Dear Commissioner Newman:

We are aware that you have not determined your YEH or NAY vote for the reinstatement of the free APS 1000 feet line extension. With the condition of our current economy, it is time that we stop adding unfair demand to our developers and contractors. We need to be good partners, especially in rural Arizona and not target the life blood of people that can help stimulate our economy. It is time to be less subjective and stop thinking about increasing revenue streams as the only way to support our utility companies - we must strengthen our partnerships and work together. Gone are the days of wild-cat developers and lot-splitters and it is time to help the builder that truly want to build, live and support our area and state. I am asking that we start by working together and manage growth and development and stop shifting the burden of growth to citizens who are builder-owners, builders and developers. The reinstatement will lessen the huge impact on homeowners and your YES vote would mean a lot to our area. Please favor the reinstatement of the line extension.

Respectfully,

Sandra Griffis
Executive Director

cc: Commissioner Kennedy
Commissioner Mayes, Chairman
Commissioner Pierce
Commissioner Stump
