INSERT the following:

Commission Consideration of Request to Reclassify Schools as Residential

“29. The Commission declines to decide APS’s request to classify school projects as residential distributed energy projects at this time. The Commission appreciates APS for raising this issue, but believes additional scrutiny of the request is warranted given the fact that APS first raised this issue in a filing docketed with the Commission on July 30, 2009. The Commission notes that the request has prompted one intervener in opposition to APS’s request and two proposed amendments. The Commission believes that APS should provide notice to all school districts in its service territory regarding APS’s request to treat school projects as residential. The Commission expects to decide APS’s request on an expedited basis. APS shall give notice to affected stakeholders so that they will have an opportunity to intervene and share their perspective on APS’s request with the Commission. Staff will provide the Commission with a Staff memorandum and proposed form of order that evaluates APS’s request.”

INSERT the following ordering paragraph:

“IT IS FURTHER ORDERED that by August 28th, 2009, Arizona Public Service Company shall provide notice to all school districts in its service territory regarding its request to classify school projects as residential distributed energy and shall file proof of such notice with the Commission.”

Conforming changes.
