**SUMMARY OF APS TESTIMONY
ARIZONA ASSOCIATION OF SCHOOL BUSINESS OFFICIALS
APS RATE CASE SETTLEMENT
DOCKET NO. E-01345A-08-0172**

The Arizona Association of School Business Officials (AASBO) supports the proposed settlement with Arizona Public Service. The proposed settlement provides school districts with the ability to plan for the impact of electric rates on future budgets. Schools districts with APS service will now know what rates will be to at least July 1, 2012. This means known rates for the 2009-10 through the 2011-12 school years.

In addition, the proposed settlement calls for increased energy efficiency measures and accelerated installation of renewable energy resources. These measures will assist school districts in the management of future energy costs and allow for more dollars to be available for instructional related activities.

Finally, the future availability of a new optional rate will provide school districts with a financial incentive to shift consumption during the day and school year away from peak periods to further reduce costs.
