Page 9, line 16.5, INSERT New Finding of Fact:

“It is clear from the record and public comment in this case that schools, municipalities and other government institutions will be eligible for a significant amount of federal stimulus funding in 2009 and 2010 for the installation of distributed solar energy systems. Therefore, we believe it is in the public interest for APS to file, as a supplement to its 2010 REST Implementation Plan, a proposal to create a separate category for these entities, with the funding coming from the commercial portion of APS’ distributed generation program. We believe this will prevent schools and governmental institutions from being “crowded out” by other commercial projects, as was apparently the case in 2009, and will ensure that these institutions are able to take advantage of the unique circumstances presented by federal stimulus funding.”

Page 10, line 13, INSERT New Ordering Paragraph: “IT IS FURTHER ORDERED that APS shall file by October 16, 2009, as a supplement to its 2010 REST Implementation Plan, a proposal to create a separate category for schools, municipalities, and other governmental entities, with the funding for this category coming from the commercial portion of APS’ distributed generation program. We believe this will prevent schools and governmental institutions from being “crowded out” by other commercial projects, as was apparently the case in 2009, and will ensure that these institutions are able to take advantage of the unique circumstances presented by the federal stimulus funding.”
