Dear Renee De la Fuente,

Today I just mailed you the 2007 and 2008 annual reports for the above water company.

Many years ago my parents thought it was a good idea to form Despoblado Water Company to provide water from their well to nine small casita rentals they had built on their ten acre property.

They never read meters or billed tenants for water. The water was always free.

About twenty years ago their well ran dry and was deactivated.

Water was then purchased and supplied, via one master meter to the property by Metropolitan Water Company. My mother pays for that water which is used by her and her nine tenants. The water is not resold to tenants.

Metro Water District currently supplies all water through one master meter. This water is used on her property only and not resold to anyone.

It really doesn't make sense to continue Despoblado Water Company.

I would like to request that Despoblado Water Company be considered inactivated.

Please advise me what I need to do to inactivate the current C,C,& N so that Despoblado Water Company is no longer on the roles as a public utility.

Sincerely,

Peter O'Crotty
