MAYES PROPOSED AMENDMENT # 3

DATE PREPARED: September 8, 2009

COMPANY: Arizona Public Service Company

AGENDA ITEM NO. U-1

DOCKET NO. E-01345A-09-0263

OPEN MEETING DATE: September 9, 2009

Page 9, line 16.5, INSERT New Finding of Fact:

“While we decline today to adopt the Solar Alliance’s proposal for addressing the under-utilization of the residential distributed generation funds, we agree that the program would benefit from changes that would allow more homeowners to participate in the program. Just as commercial distributed generation has benefitted tremendously from the introduction of the Production Based Incentives, we believe the residential distributed generation program could be propelled by a similar mechanism that allows homeowners to economically deploy solar energy on their rooftops. Therefore, we believe that Arizona Public Service Company should present to the Commission, as a supplement to its 2010 REST Implementation Plan, a proposal that is designed to improve the performance of the residential distributed generation program. Such a proposal could include, but is not limited to: a revolving loan fund that would assist homeowners in overcoming the barriers associated with the up-front costs of residential solar, a community solar program, a targeted feed-in tariff or a residential distributed energy production based incentive, or some combination of these programs.”

Page 10, line 13: INSERT New Ordering Paragraph: “IT IS FURTHER ORDERED that Arizona Public Service Company shall file by October 16, 2009, as a supplement to its 2010 REST Implementation Plan, a proposal that is designed to improve the performance of the residential distributed generation program. Such a proposal could include, but is not limited to: a revolving loan fund that would assist homeowners in overcoming the barriers associated with the up-front costs of residential solar systems, a community solar program, a targeted feed-in tariff or a residential distributed energy production based incentive, or some combination of these programs.”

Make all conforming changes.
