Case #144

RE: Unisource Energy Transmission Line Alignment in Rio Rico

Dear Ms. Breslin:

To further clarify Avatar Properties Inc.'s position on the placement of the transmission line in Rio Rico, we remain in support of the preferred Unisource alignment adjacent to the eastern edge of the UPRR Right of Way.

We understand that one option would be to leave the transmission line in its existing location. We have no objection to this from Kiwi Court to the Canez substation. However, we would prefer the Unisource preferred alignment from Avenida Ostion to Kiwi Court. Because of the cost factor in placing the line on the west side from Kiwi Court to the Canez substation, we would not prefer this alignment.

Sincerely,

Sheila Vasquez
Assistant Vice President
Rio Rico Development Corp.
