The Southwest Energy Efficiency Project (SWEEP) appreciates the opportunity to submit its comments in response to the Commission Staff's memorandum regarding the Arizona Public Service (APS) Company's Request for Approval of Modifications to Decision No. 70960.

SWEEP provides the following comments on the proposed modification of the Residential HVAC program.

- I. SWEEP agrees that contractors should not have to be members of the Electric League of Arizona to participate in the HVAC program. SWEEP supports allowing all *qualified* HVAC contractors to participate in the APS Residential HVAC program.
- II. It is essential for contractors to be qualified to perform the work, by obtaining training from a training or certification program acceptable to APS, to ensure quality work in the field and satisfied customers. Also, contractors should be licensed, bonded, and insured.

Thank you for the opportunity to submit these comments on the Consideration of Arizona Public Service Company's Request for Approval of Modifications to Decision No. 70960.
