PRIVATE FIRE SERVICE

Availability

Available for fire protection only and shall serve only a single property within the Company's service area and where facilities of adequate capacity and pressure are adjacent to the premises being served.

Schedule of Charges

Minimum Monthly Charge:

| | | |
|---------|-----|----------------------|
| \$25.00 | for | 4" Fire Line Service |
| 35.00 | for | 6" Fire Line Service |
| 45.00 | for | 8" Fire Line Service |

In addition to the collection of regular rates, the Company will bill its Customer for a proportionate share of any privilege, sales, use and franchise tax.

A 1.5% late payment charge will be applied to delinquent balances.

Terms and Conditions

1. The customer will pay, without refund, the entire cost of the private fire service. Company's review and approval of the private fire service is limited only to the portion to be constructed in the ROW or easement.
2. The minimum diameter for private fire service will be four (4) inches. The maximum diameter shall not be larger than the diameter of the water main to which the fire protection service is attached.
3. If a water main of adequate size is not available adjacent to the premises to be served, then a new main from the nearest existing main of adequate size will be installed at the customer's expense.

PRIVATE FIRE SERVICE

4. All private fire services shall have a backflow prevention device approved by the Company and are subject to the Company's Cross-Connection Tariff. All backflow devices shall be installed as close as possible to the service connection and may be located within the customer's property or within the public right-of-way or easement. Where located within the customer's property, the Company and its duly authorized agents shall have the right of ingress to and egress from the property for all purposes related to said facilities.
5. The customer must notify the Company in writing within 48 hours of private fire service system activation that results in the use of water in any amount.
6. No structure shall be built over the private fire service and the customer shall maintain and safeguard the area occupied by the service from traffic and other hazardous conditions. The customer will be responsible for any damage to the private fire service facilities whether resulting from use or operation of facilities on customer's premises or otherwise.
7. The customer's installation must be such as to separate effectively the private fire service from that of the customer's regular domestic water service. Any unauthorized use of water through the private fire service will be charged for at the applicable tariff rates and may be grounds for the Company's discontinuing private fire service without liability.
8. The customer acknowledges that the Company is not in the fire service business and is providing the services described in this Tariff strictly as an accommodation for the customer. **THE COMPANY MAKES NO WARRANTY, EXPRESSED OR IMPLIED, THAT ADEQUATE WATER OR WATER PRESSURE WILL BE AVAILABLE FOR FIRE SERVICE AT ANY TIME.** The Company will supply only such water at such pressures as may be available from its water system under normal operating conditions. The Company does not guarantee a specific water pressure or gallons-per-minute flow rate at any of the private fire service facilities installed. In the event service is interrupted or irregular or defective or fails from causes beyond the Company's control or through ordinary negligence of its employees, servants or agents, the Company will not be liable for any injuries or damages arising therefrom.
9. The customer shall make no claim against the Company for any loss or damage resulting from services provided under this schedule.
