Subject: Sonoita Reliability Project

Commissioner Newman,

Speaking as an SSVEC member . . .

The Commission requested an independent study of the Sonoita line project. It was completed. The results agreed with those of the Arizona Corporation Commission's Staff and SSVEC: construct the line as originally proposed!

Now is the time to **build the line**. Let's move ahead and get reliable, affordable power to the area and stop the delays and added costs that all SSVEC members will have to pay.
