SUBJECT: Castle Megastore; American National Mortgage Partners

Mr. Mundell:

As clients of American National, we invested in Mr. Coleman's Megastore Warehouse. We received one partial payment of interest (partial due to our investment date), distributed to us by American National. No further payments were received, because Mr. Coleman failed to make his payments as he agreed to. He sent his investors a letter asking for our help and offering us a payment plan. He never made even one of his proposed payments.

American National has been working diligently on behalf of its clients to get our money back. It is our understanding that Mr. Coleman has not been cooperative.

It appears that Mr. Coleman is trying to place the blame on American National and his advisors instead of accepting his responsibilities in this matter. HE is the one who is ultimately responsible for his business dealings.

We believe that American National has worked very hard to resolve this issue. When Mr. Coleman was uncooperative, it explored other options, all with the intent of getting us our money back.

Mr. Mundell, we are small investors. We are recently retired and this money is very important to us. It is our understanding that American National cannot even handle our other investment and that we will not be able to receive those interest checks. We are sure others are in a similar situation. So we are really being hurt because, with American National not being able to do business, they cannot distribute to us our other interest checks, and ultimately the return of the principal amount.

Thank you very much for taking the time to read this. We would appreciate any help you could give to the clients of American National in recovering our money from Mr. Coleman and other investments that American National was handling for us.

Sincerely,

Anita Alex Marc Alop
