Ms. Stewart,

I am not sure what witnesses are scheduled for tomorrow. Some I am told are from out-of-state. So I am not in a position to commit to a time tomorrow that could be available for additional public comment. However, after I hear from the parties about what they are planning tomorrow I should be able to find a time Wednesday or Thursday that would work. Would I be safe in assuming that Mr. Slavin's additional slide and the presentations of those who did not speak before would not total more than 15 or 20 minutes?

Judge Foreman:

There are owners of two additional large landholdings who wish to address the committee who were not present at the first public comment session. They plan to have their own spokesperson speak on their behalves, but also wish to dovetail their presentations with the presentation which our law firm made at the opening session. We are preparing a new PowerPoint slide, which will include these additional landholdings. Because these landowners have in the last few days become aware of the potential impact of the future location of the high-voltage transmission lines on their properties, they are looking to our firm to bring them up to speed quickly. Mr. Slavin would request that you allow him an additional 3 minutes to present the more inclusive PowerPoint slide so that the following speakers will have an easy segue into their presentations. More importantly for them than us, it would be helpful if they could make presentations at a select time during tomorrow's hearing, in which event they will be able to participate and leave, thus minimizing their attorney fees.

Thank you for your consideration of this request.

Ms. Stewart,  
After the initial round of public comment has occurred, additional public comment occurs occasionally when we have time in the schedule. I usually do not allow additional public comment by those who have previously spoken unless it is something new and something that could not have been presented

earlier. Why is a second presentation important? How long do you anticipate the presentations of your speakers be? What interest do they have in the application?

We will always consider written public comment, if you wish to submit something in writing.

Mr. Foreman:

Good morning. I am writing with a question in regards to the Abel-Moody Commission Line meeting to be held tomorrow. If I spoke at the previous meeting on Aug. 5, will I be permitted to speak again at this hearing? Also, is there a set time that public speakers will be allowed? I ask because this firm represents a handful of the public who would like to speak tomorrow, but cannot spend all day at the hearing. If there is only a ballpark range for when public speakers will be heard, that would be great - but, of course, the more specific, the better.

I appreciate your time and look forward to hearing back from you. Please don't hesitate to contact me at 602-381-8700 if you have any questions.

Best,

Nicole Stewart

Tara,

Like Mr. Robertson, I represent parties in the SolarCity Proceeding that has been scheduled before the Arizona Corporation Commission for the October 14-16 period. Unlike Larry, I anticipate that I could still participate in a procedural conference for Case 148 during that period. There is also some possibility (based upon preliminary review of the pre-filed testimony submitted) that the SolarCity proceeding will not require 3 full days of hearing. Therefore, the 16th (and if possible the afternoon) would be my preference. Otherwise, I will try to make whatever date and time selected from those listed in your e-mail.

Tara,

Unfortunately I will be unavailable for any of the dates and times set forth in your email of earlier this morning on the above-referenced subject.  
More

specifically, I will be participating in hearings before the Arizona Corporation Commission in Phoenix in the SolarCity proceeding during the October 14-16, 2009 time period. This proceeding involves a threshold jurisdictional issue for the solar electric industry in Arizona. I am representing one of the principal solar electric industry parties in the proceeding, and thus will not be in a position to excuse myself for purposes of attending a Procedural Conference in Siting Case No. 148.

As I indicated to Chairman Foreman yesterday during the hearings in Siting Case No. 148, I will continue to participate in conversations with representatives of SRP and the Town of Queen Creek with the objective of hopefully reaching a consensus position on a transmission line alignment north of Receiving Station No. 24 (RS-24). In that regard, I assume that Messers. Sundlof, Birnbaum and/or Braselton will be in a position to report at the Procedural Conference of the results of those discussions. In

addition, I will endeavor to inform myself as to the results of the Procedural Conference itself prior to the resumption of hearings in Siting Case No. 148 on October 19, 2009.

Please let me know if you have any questions regarding the above.

Tara,

If Bill Sullivan is correct in his conjecture that the SolarCity proceeding will require less than three (3) complete days to conduct, then October 16, 2009 (Friday) at 1:30 p.m. works for me. In that regard, since I will literally be across the street at 1200 West Washington in connection with the SolarCity hearings, I will plan to personally participate from the Attorney General's conference room unless otherwise advised by Chairman Foreman or you.

Larry Robertson

Tara,

SRP spoke with Darla at the San Marcos hotel and she can give us the group rate at \$99 each night (govt rate is \$120) if we book at least three rooms for three nights (Sunday-Tuesday).

Let me know if you have any questions or if I need to provide additional information.

## FOOTNOTE(S) APPENDIX

<sup>1</sup> Pinal County is concerned that any transmission alignment along Meridian Road between Nodes 9 to 14 to 27 could jeopardize or adversely affect the future use of that portion of Meridian Road as a Regionally Significant Route for Safety and Mobility ("RSRSM") in Pinal County. RSRSMs are the subject of a December 2008 Final Report which was produced by Pinal County and twenty-one (21) other governmental entities located within Pinal County and northern Pima County.

<sup>2</sup> Pinal County is currently investigating with certain other parties to Siting Case No. 148 a suitable substation site within this area. The results of that investigation (and any associated exterior design and landscaping recommendations) may not be known as of the time hearings begin on August 5, 2009 in Siting Case No. 148.

<sup>3</sup> For the many reasons given in its testimony, the City of Mesa's City is strongly opposed to either of the Germann Road alignments and prefers the low-cost alternative: the North RR alignment. The Ryan alignments would be more expensive than the North RR alignment, which makes them less attractive. However, they would be significantly better than the Germann alignments because they would not interfere with Gateway Airport's present or future operation and would not adversely impact present and future residential, commercial, and light-industrial developments along Germann Rd.

<sup>4</sup> The Queen Creek Town Council has expressed support for a Germann Road alignment with Meridian as the N/S route. Signal Butte is a less desirable alternative for the N/S segment.

<sup>5</sup> Queen Creek favors a location within the northern area of the northern-most proposed substation site. A specific location plan exhibit will be submitted.

<sup>6</sup> Vlachos accepts construction on the South side of Ryan only. The North side of Ryan is opposed.

Ms. Stewart,

I have attached the list of people that I have down for making public comment. If you want to make sure that I didn't miss anyone, I believe the best way to double-check is to use the transcripts available at the Corporation Commission's Docket Control.
