**Black Mountain Sewer**  
**Docket Control No. SW-02361A-08-0609**

Dear Commissioners,

I support de-commissioning the Black Mountain Sewer Processing Plant located in the midst of a beautiful residential neighborhood within 100 feet of adjacent residences.

I recognize that there will be some costs to Black Mountain Sewer users involved in this de-commissioning and remediation effort, and I am willing to accept my share of these costs.

The problems my neighbors and I are experiencing prompting me to write this letter are identified below:

- **Strong and nauseating odors, offensive to both Boulders residents and Boulders Resort guests**, frequently coming from the Processing Plant
- **Health concerns from chemicals** required to be inserted trying to mitigate the odors
- **Loud noises** coming from the Processing Plant
- **Frequent repair and pumper trucks** driving through the residential neighborhoods of the Boulders, and parking in front of the Processing Plant
- **Decreased home and property values** because of the proximity of the Processing Plant to many homes within the Boulders, and the odors, noises and truck traffic associated with the Processing Plant
- **It would be more efficient to de-commission the Processing Plant now**, rather than continue to waste more funds each year in costly repairs and then de-commissioning the Processing Plant and remediating the land at a later date.

Until living in the more immediate area of the sewer plant, my wife and I were not aware of the tremendous and negative impacts this facilities produces through noxious odors and inappropriate and ongoing maintenance activities in a residential neighborhood.

More to point, at some future point my wife and I will downsize our Colorado home and become full time residents of Arizona. The proper handling of this request by the county commissioners will certainly have an impact on our finalizing our decision.

Thank you for your consideration of this request,

James J. Gould

Re: Black Mountain Sewer  
Docket Control No.: SW-02361A-08-0609

Dear Commissioners:

As a member of the Boulders who drives by the Sewer Processing Plant daily, I support de-commissioning the Black Mountain Sewer Processing Plant, which is within 100 feet of adjacent residences.

I recognize that there will be some costs to Black Mountain Sewer users involved in this de-commissioning and remediation effort, and I am willing to accept a reasonable share of these costs.

The problems my neighbors and I are experiencing prompting me to write this letter are identified below:

- **Strong and nauseating odors, offensive to both Boulders residents and Boulders Resort guests**, frequently coming from the Processing Plant.
- **Health concerns from chemicals** required to be inserted trying to mitigate the odors.
- **Loud noises** coming from the Processing Plant.
- **Frequent repair and pumper trucks** driving through the residential neighborhoods of the Boulders, and parking in front of the Processing Plant.
- **Decreased home and property values** because of the proximity of the Processing Plant to many homes within the Boulders, and the odors, noises and truck traffic associated with the Processing Plant.

This is something that needs to happen now. We have had to work with Black Mountain Sewer for years, and they should realize it best to de-commission now and avoid these problems and costly repairs.

Thank you for your consideration of this request.

Very truly yours,
