Re: SSVEC rate case, docket # E-01575A-08-0328

Dear Honorable Judge Jane Rodda:

I am a citizen of both Sonoita and Whetstone, and a member/cooperator of SSVEC.

I have read Mr. Huber's letter to Commissioner Newman concerning the 69kV line and moratorium. I would like to let you know:

- 1) I am a member who supports the new 69K line.
- 2) But I have never seen anyone intimidated concerning their views of SSVEC's actions in our area
- 3) I think the feasibility study is a waste of time and money. Move ahead with the line.
- 4) I am not happy with the moratorium, because it prevents growth and building in our area.

- 5) SSVEC does need to be more forthright in its public notices to the area folks, such as in costs and the willingness of TEP to provide backup power.
- 6) With the upgrades SSVEC has done, especially the lightening arresters and pole replacement this year to Patagonia, delivery has been greatly improved over the past 10 years.
- 7) Some people will complain about almost anything. Growth requires change, and change takes risk.

Respectfully submitted.

God bless you,  
Pastor Chuck
