DELETE "Here, there is no dispute that the SGAT provision is lawful."

INSERT "Qwest revised SGAT Section 7.0 to allow CLECs the most efficient means of interconnection, including a single point of interconnection per LATA."

Page 10, line 13:

INSERT "In its exceptions to the Recommended Order filed December 17, 2001, Qwest states it has removed the restrictive definition of POI from its SPOP and affirms that it permits a CLEC to establish a POI at any Qwest wire center. Qwest's revisions to its SGAT and SPOP appear to resolve this issue without further action by the Commission at this time."
