Subject: SSVEC rate case docket # F-01575A-08-0328

Honorable Chairperson Mayes:

I am a resident of Sonoita, and a service member of SSVEC. I support the ACC rulings, and I am very concerned for all the rate payers of SSVEC. I also support the feasibility study and public meetings to resolve the problems we have with SSVEC. It is important that all the facts be revealed, and that the process may continue, to help us create a sustainable, renewable energy future, with far less dependence on coal fired power plants. Sincerely, Timothy Storer
