Re: Customer Notification of the proposed rate application

Bellemont Water Company has applied to the Arizona Corporation Commission for an adjustment in rates. The current rates have been in effect since September 2008. A decrease in rates is necessary at this time due to the need to get the rates more in line with the market. Based on the Company's un-audited Test Year results, Bellemont Water Company realized operating revenues of \$63,480 which resulted in a net operating income of \$11,860. The Company does not believe that this decrease will lower revenues, but will increase revenues about \$72,000 through higher volume of sales. This money is needed to service the debt on the proposed drilling of permanent deep water well. Please see the attached pages 9 and 11 of the Company's application for the current and proposed rates.

The application is available for inspection during regular business hours at the offices of the Commission in Phoenix at 1200 West Washington Street, or online at <http://edocket.azcc.gov/edocket> and at the Bellemont Water Company. Please be advised that the rates and charges ultimately approved by the Commission may be higher or lower than the rates and charges requested in the Application.

Customer input is an important part of the Commission's analysis of the requested adjustment and is a factor in determining whether a hearing will be conducted. Customers should bring to the Commission's attention any questions or concerns related to the Company's Application including service, billing procedures, or other factors important in determining the reasonableness of charges. Customers may have the right to intervene in this matter. Customers wishing to communicate with the Commission, or request information on intervention in the proceeding, should contact the Commission's Consumer Services Section at 800-222-7000 (if located outside the Phoenix local calling area) or 602-542-4251 in the local Phoenix local calling area. Customers may also contact the Tucson Commission office by calling 800-535-0148 (if located outside the Tucson local calling area) or 520-628-6555 in the Tucson local calling area.

Customers are advised that the Commission may act upon the Application without a hearing. Regardless of whether a former hearing is held, customer comments submitted in writing will be placed in the office file, which the Commission reviews prior to making its final decision on the Application. It is important that customers contact the Commission within 15 days of the receipt of this notice so that the Commission's Staff can consider customer comments and concerns in developing its' recommendations to the Commission.

The commission's Utilities Division Staff has not yet made a recommendation regarding the Company's rate increase proposal, and the Commission will determine the appropriate rate relief to be granted based on the evidence of record in this proceeding. The commission is not bound by the proposals made by the Company, Staff, or any interveners and, therefore, the final rates approved in this docket may be lower or higher than the rates proposed in the application.
