DOCKETED

DEC - 3 2009

DOCKETED BY [Signature]

In the matter of the aforementioned docket numbers, I, Terrence Scioritno, a resident of Maricopa, Arizona, located in Pinal County, do hereby oppose the proposed increases from Global Water for the following reasons:

- The proposed increase will have a financial impact on my personal budget as well as my Homeowners Association budget My ROA is already facing significant challenges due to delinquencies and foreclosures and this will only serve to make conditions worse.
- The proposed rate increases are purely profit-driven so that major stakeholders and investors will realize a higher rate of return. Increases do not propose improvements to service, quality of water, or distribution and there are no plans to improve existing, or build new, infrastructures.
- Maricopa is one of the hardest hit areas in the country for foreclosures. Proposed increases will be detrimental to attracting builders and buyers, which further diminishes already reduced real estate values. Associations cannot raise assessments enough to cover increases, which will force a severe reduction in maintaining green,

healthy landscaping. Aesthetics are the "first impression" of a community and often, one of our biggest and most visible amenities. If the increased rates are approved as proposed, it will severely limit our ability to maintain those amenities, thus creating a less than desirable appearance to residents, visitors, guests and potential buyers.
