I wish to Protest against the astronomical increase requested by LPSCO for base sewer and water services, plus any changes in the consumption rates. Granted, I understand that LPSCO has to recover funds for improvements, but I believe spending should be done with realistic customer rates in mind. As a person living on a fixed income, it is extremely difficult to factor in a 123% increase in water costs and an 81% in sewer costs, plus the added sales taxes for state, county, and municipality added to that.

I strongly urge the Commission to drastically cut the amount of water and sewer increases that we will see on our bills. People on Social Security will not see a Cost of Living increase in their Social Security checks next year because supposedly theta is no inflation, but the proposed 123% and 81% increases in water and sewer respectively refutes that theory. If LPSCO receives any increases over 2% it is out of line.

CONSUMER INQUIRY AND/OR COMPLAINT FORM RECEIVED 11/18/09 FROM:

The proposed rate increase for water and sewer charges from Liberty Water is unheard of in today's economy. Proposed rates more than double present bills.
