20 **SUCH RESUMED HEARING WILL BE GIVEN; HOWEVER, PUBLISHED NOTICE OF**

22 The Project is located in Mohave County, approximately 27 miles north of Kingman, Arizona, and
23 80 miles southeast of Las Vegas, Nevada. The 340 megawatt CSP generating facility is located
24 entirely on private land in Sections 19, 20, 21, 28, 29, 30, and the north half of Section 31 all
25 within Township 26 North, Range 16 West, Gila and Salt River Baseline and Meridian.

26 The application seeks approval of two transmission line interconnections:

27 Interconnection #1 Gen-Tie alignment, located entirely in Township 26 North, Range 16 West,
runs from the generating facility's power block to the property boundary; then north for 1.25 miles
within a 1320-foot wide corridor from the property boundary along the east boundary of Section
17 (private property) and Section 08 (BLM land); then north for 1.25 miles within a 1320-foot
wide corridor along the west boundary of Section 16 (BLM land) and Section 09 (private
property) until it reaches the north boundary of Section 09; then east for about 0.75 miles within a
1320-foot wide corridor along the north boundary of Section 09 (private property) until it reaches
the termination in the northeast corner of Section 09 (private property). Interconnection #1 is
approximately 2.75 miles in length from the generating facility property boundary and has a total
ROW acreage of approximately 70 acres.

Interconnection #2 Gen-Tie alignment runs from the generating facility's power block to the
property boundary; then north for 1.25 miles within a 1320-foot wide corridor from the property
boundary along the east boundary of Section 17 (private property) and Section 08 (BLM land);

1 then north for 1.25 miles within a 1320-foot wide corridor along the west boundary of Section 16
2 (BLM land) and Section 09 (private property) until it reaches the north boundary of Section 09;
3 then north for one mile within a 1320-foot wide corridor through Section 04 until it reaches the
4 west boundary of the existing Mead-Liberty 345kV transmission line corridor, which it will
5 parallel on a generally northwest heading; from there it will run within a 2640-foot wide corridor
6 measured from the centerline of the Mead-Liberty 345kV transmission line west of and parallel to
7 the existing transmission line for approximately 3.5 miles, going through the northeast corner of
8 Section 05 in Township 26 North, Range 16 West (BLM land); through Sections 32, 31, and 30 in
9 Township 27 North, Range 16 West (BLM land); through Sections 25 (private property) and 24
10 (BLM land) in Township 27 North, Range 17 West; and terminate in Section 23 (private property)
11 in Township 27 North, Range 17 West. Interconnection #2 is approximately 6.5 miles in length
12 from the property boundary and has a total ROW acreage of approximately 160 acres.

13 As an alternative, the Applicant may build a 500 MW photo-voltaic (PV) generating facility. The
14 Interconnection Gen-Tie alternatives will be the same for the PV project as for the CSP project.

Siting
Case No. 144

Notice of Filing a Motion to Intervene

by

Elizabeth Buchroeder-Webb (Elizabeth Webb)

As a ratepayer, consumer, and interested party, I respectfully request to be a party in this matter. I have experiences involving Vail and Pima County energy issues as a civilian intervener in TEP Line Site Case 138 and City of Tucson Case SE-08-05 TEP Cienega Substation Dawn Drive RH Zone (Ward 4). Additionally, I am a community volunteer in local historic, cultural, educational, environmental issues as well as a member of the Vail Preservation Society and the Hilton Ranch Community Association. Potential issues should be prudently resolved during this case. The key issue is the impact to the natural, historic and human environment within the approximately 425 square miles of the Vail School District boundaries- an area also encompassed within the identified boundaries of the Vail Preservation Society. I respectfully ask not to be combined with any other interveners in this case as my area of interest is predominately within Segment 1A and a smidge south of there within Pima County.-.

The following are concerns in this case:

1. Environmental impacts of new transmission line routes and associated access roads.
2. Visual impacts of "weathered" compared to less visible galvanized steel poles
3. Repetitive impacts to the natural, cultural and human environments of one county/area in Arizona for the benefit of a different county/area and another separate corporation in the state of Arizona-particularly in rural areas.

If this motion is approved, I request a discovery period through 30 June 2009, due to the short time between date of my motion to intervene and the hearings. If the applicant denies any discovery data request, that response requires rapid adjudication. Such denied response needs to include the Committee Chairman as an addressee so any dispute can be promptly resolved. I plan to dispute any data request denial to the Committee Chairman within 3 days. Ten calendar days for data request responses is expected and appreciated.

Tara,

If the pre-hearing conference can be set for the afternoon of January 4th that would be great. If Jan. 4th does not work for the Chairman, let me know when he is available that week.

Good Morning Marge,

The Chairman would like to schedule the pre-hearing conference for the Hualapai application. Since the hearing is scheduled for January 12th, the conference can probably be either December 30th or the week of January 4th.

Tara,

Since the hearing will be held at the Hampton Inn and Suites Kingman, we have set aside a block of sleeping rooms at the Hampton Inn for the committee, the applicant, and the court reporters. The government rate that was quoted to us by the Hampton Inn is \$99.00 per night. Let me know if the committee will need more documentation than that to have their expenses approved.

Greetings, The Hualapai Tribal Council has expressed interest in receiving official Intervention Status in the referenced doc. #-case #151, Hualapai Valley Solar, wet cooled C.S.P.. Please provide appropriate forms for the Tribe to fill out to achieve this status in this case. The Tribes standing stems from having Tribal property within some 5 miles of this proposed project and its concerns about the effects on its aboriginal water rights, among other issues .

Case No. 150

REQUEST FOR LEAVE TO INTERVENE AND NOTICE OF INTENT TO BE A PARTY, OR, IN THE ALTERNATIVE, STATEMENT OF LIMITED APPEARANCE

Arizona Corporation Commission
DOCKETED

OCT 16 2009

DOCKETED BY 

23 Pursuant to Arizona Revised Statutes ("A.R.S.") § 40-360.05(A)(4) and A.A.C.
24 R14-3-204, W Harquahala, LLC ("W Harquahala") hereby submits this Request for Leave
25 to Intervene and Notice of Intent to be a Party in the above-captioned certification

1 proceeding before both the Arizona Power Plant and Transmission Line Siting Committee
2 (“Committee”) and the Arizona Corporation Commission (“Commission”). In the
3 alternative, in the event leave to intervene is denied for any reason, W Harquahala submits
4 this as its statement of limited appearance pursuant to A.R.S. § 40-360.05(B).

5 W Harquahala is a limited liability company formed and organized under the laws
6 of Arizona, with its principal place of business in Maricopa County. Because the
7 Starwood Solar I Project (“Project”) that is the subject of this proceeding may
8 significantly impact W Harquahala, W Harquahala requests that the Committee grant its
9 request for intervention and designation as a party.

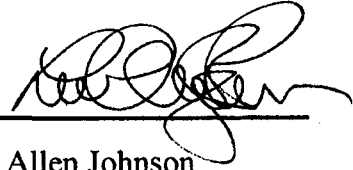

10 As stated in the application for a certificate of environmental compatibility on file
11 with the Committee, the Project is wholly located within the Harquahala Irrigation Non-
12 Expansion Area (“INA”) and the Harquahala Valley Irrigation District (“HVID”). W
13 Harquahala is the largest private landowner in HVID. W Harquahala owns
14 approximately 17,077 acres of land within HVID, comprising more than 50% of HVID’s
15 irrigated lands. W Harquahala’s land is currently being farmed, using groundwater
16 pursuant to Notices of Irrigation Authority (“NIAs”) granted by the Arizona Department
17 of Water Resources. W Harquahala’s property includes lands adjacent to and in the
18 vicinity of the proposed Project.

19 The use of groundwater for irrigation within the INA is restricted to a limited
20 number of NIA-certificated lands. The use of groundwater for commercial and industrial
21 uses (including the proposed Project) is also restricted. Any proposed commercial or
22 industrial use of water that will exceed 100 acre-feet per year must demonstrate
23 compliance with strict statutory criteria, as provided in A.R.S. §§ 45-440. Under certain
24 conditions, groundwater may also be transported from NIA-certificated lands in the INA
25 for use as a water supply for communities in Central Arizona. *See*: A.R.S. §45-554.

1 A broad range of future water needs for agriculture, commercial and industrial use,
2 residential use, and groundwater transportation will need to be accommodated within the
3 finite pool of groundwater resources available in the INA. Recognizing this fact, W
4 Harquahala has undertaken extensive hydrologic studies in the INA, including
5 development of a sophisticated groundwater model, to investigate and define the
6 availability of water for various future uses. Given W Harquahala's substantial
7 landholdings in the INA, and its significant investment in the investigation and
8 development of local groundwater resources, the Project's proposed use of groundwater
9 could have significant impact on W Harquahala's interests.

10 Moreover, as an owner of adjacent lands, W Harquahala will be directly affected
11 by the Project and will experience both potential visual and physical impacts to its
12 property as a result of Project facilities such as the mirror array, thermal storage units, gas
13 burners, and transmission lines. Therefore, W Harquahala respectfully submits this Notice
14 and requests leave to intervene and to be designated a party to these proceedings. In the
15 alternative, W Harquahala submits this notice as it statement of limited appearance.

NOTICE OF HEARING

A PUBLIC HEARING WILL BE HELD before the Arizona Power Plant and Transmission Line Siting Committee (Committee) regarding the Application of Hualapai Valley Solar, LLC (Applicant) for a Certificate of Environmental Compatibility to authorize construction of a 340 MW parabolic trough concentrating solar power generating facility (CSP) and an associated Gen-Tie line interconnecting the generating facility to the existing Mead-Phoenix 500kV transmission line, the Mead-Liberty 345kV transmission line, or the Moenkopi-El Dorado 500kV transmission line (collectively, the Project).

20 **SUCH RESUMED HEARING WILL BE GIVEN; HOWEVER, PUBLISHED NOTICE OF**
21 **SUCH RESUMED HEARING IS NOT REQUIRED.**

22 The Project is located in Mohave County, approximately 27 miles north of Kingman, Arizona, and
23 80 miles southeast of Las Vegas, Nevada. The 340 megawatt CSP generating facility is located
24 entirely on private land in Sections 19, 20, 21, 28, 29, 30, and the north half of Section 31 all
25 within Township 26 North, Range 16 West, Gila and Salt River Baseline and Meridian.

26 The application seeks approval of two transmission line interconnections:

27 Interconnection #1 Gen-Tie alignment, located entirely in Township 26 North, Range 16 West,
runs from the generating facility's power block to the property boundary; then north for 1.25 miles
within a 1320-foot wide corridor from the property boundary along the east boundary of Section
17 (private property) and Section 08 (BLM land); then north for 1.25 miles within a 1320-foot
wide corridor along the west boundary of Section 16 (BLM land) and Section 09 (private
property) until it reaches the north boundary of Section 09; then east for about 0.75 miles within a
1320-foot wide corridor along the north boundary of Section 09 (private property) until it reaches
the termination in the northeast corner of Section 09 (private property). Interconnection #1 is
approximately 2.75 miles in length from the generating facility property boundary and has a total
ROW acreage of approximately 70 acres.

Interconnection #2 Gen-Tie alignment runs from the generating facility's power block to the
property boundary; then north for 1.25 miles within a 1320-foot wide corridor from the property
boundary along the east boundary of Section 17 (private property) and Section 08 (BLM land);

1 then north for 1.25 miles within a 1320-foot wide corridor along the west boundary of Section 16
2 (BLM land) and Section 09 (private property) until it reaches the north boundary of Section 09;
3 then north for one mile within a 1320-foot wide corridor through Section 04 until it reaches the
4 west boundary of the existing Mead-Liberty 345kV transmission line corridor, which it will
5 parallel on a generally northwest heading; from there it will run within a 2640-foot wide corridor
6 measured from the centerline of the Mead-Liberty 345kV transmission line west of and parallel to
7 the existing transmission line for approximately 3.5 miles, going through the northeast corner of
8 Section 05 in Township 26 North, Range 16 West (BLM land); through Sections 32, 31, and 30 in
9 Township 27 North, Range 16 West (BLM land); through Sections 25 (private property) and 24
10 (BLM land) in Township 27 North, Range 17 West; and terminate in Section 23 (private property)
11 in Township 27 North, Range 17 West. Interconnection #2 is approximately 6.5 miles in length
12 from the property boundary and has a total ROW acreage of approximately 160 acres.

13 As an alternative, the Applicant may build a 500 MW photo-voltaic (PV) generating facility. The
14 Interconnection Gen-Tie alternatives will be the same for the PV project as for the CSP project.

15 Maps of the Project site and detailed information about project facilities and technology are
16 contained in the Application, which is available for inspection at the following locations:

Neither the Line Siting Committee nor the Chairman has the authority to direct Docket Control to send one of the 25 copies of pleadings and procedural orders filed with Docket Control to prospective parties.
 3. The Applicant shall arrange for the publication and posting of notice of the evidentiary hearing, as agreed to at the pre-application hearing involving the Applicant and all known potential interveners, in a form approved by the Chairman and circulated for approval as to form to all known potential interested parties. In addition, the Applicant shall submit a copy of the notice and present testimony describing the publication and posting of the notice at the evidentiary hearing.
 4. The Applicant shall make arrangements for the evidentiary hearing to be held at the Hampton Inn & Suites, 1791 Sycamore Avenue, Kingman, AZ 86409, beginning on January 12, 2010, at 9:30 a.m. and continuing, if necessary, on January 13, 2010 and January 14, 2010, at 9:30 a.m. In addition, the Applicant shall make arrangements for a public comment session to be held at the same venue starting at 6:00 p.m. on January 12, 2010. The Applicant shall make arrangements for further regular sessions, if needed, and additional public comment sessions, if needed, on dates and at times to be determined later.
 5. The Applicant shall contact the Chief Finance Officer of the Commission and make financial arrangements regarding hotel reservations and other expenses of the Line Siting Committee Members. The Applicant shall also make arrangements with the Commission concerning reimbursement of the Line Siting Fund should the expenses of the hearings exceed the application fee. A.R.S. § 40-360.10. The Applicant shall advise the Chairman of the results of these discussions so the necessary information may be communicated to the Line Siting Committee Members.
 6. The Applicant and all other potential parties ("persons" within the meaning of A.R.S. § 40-360(8) who intend to intervene or request to intervene pursuant to A.R.S. § 40-360.05(A)) shall meet and confer, on or before the beginning of the evidentiary hearing to determine whether any of the intervening parties have similar interests in the application process that will allow them jointly to present testimony on direct or cross-examination of witnesses or jointly to offer exhibits into evidence. The Applicant shall, and any other potential party may, report to the Chairman the results of the attempts of the parties to resolve the issues and to determine if common interests exist that will allow parties to jointly present evidence and argument or to avoid repetition of testimony and argument at the hearing.

- 1 7. The parties and any other potential parties ("persons" within the meaning of A.R.S.
2 § 40-360(8) who intend to intervene or request to intervene pursuant to A.R.S. §
3 40-360.05(A)) shall not communicate with any member of the Line Siting
4 Committee about any procedural matters or any factual issues or legal issues
5 relating to the Application while the Application is pending before the Line Siting
6 Committee. The only exception is the parties may communicate with the
7 Chairman, during the time the Application is pending, about procedural matters
8 relating to the preparation of the Application for hearing, the hearing on the
9 Application and the decision on the Application by the Line Siting Committee.
10 Communication of the parties with the Chairman about any procedural matters,
11 during the time an Application is pending, shall be in writing with a copy of the
12 writing to all parties or known potential parties ("persons" within the meaning of
13 A.R.S. § 40-360(8) who have expressed an intention to intervene or request to
14 intervene pursuant to A.R.S. § 40-360.05(A)), or shall be on the record at a pre-
15 application hearing, at a procedural hearing or at the hearing on the Application.
16 Any party who initiates any written communication sent to the Chairman shall file,
17 with Docket Control of the Commission, a copy of the communication, including its
18 distribution list, within 10 days of sending the communication.
- 19 8. Whenever an agenda is filed pursuant to A.R.S. § 38-431.02, all parties shall
20 submit, at least forty-eight hours before the hearing or meeting described in the
21 agenda, any objections, additions or corrections to the agenda, in order to bring
22 the agenda into compliance with A.R.S. § 38-431.02, in writing to the Chairman,
23 serve a copy upon all other parties and file a copy with Docket Control of the
24 Commission.
- 25 9. In addition, all parties shall meet and confer as needed before, during and after the
26 hearing to attempt to resolve any disputes amongst the parties. The parties also
27 shall keep all other parties advised of their positions and intentions with regard to
the presentation of evidence, witnesses and the application process in general to
avoid delay, the presentation of repetitive evidence and any unfair advantage from
surprise.
10. All parties shall prepare brief summaries of the expected direct testimony of each
witness they will call. In lieu of a testimonial summary, a party may pre-file and
exchange all or substantially all of the direct testimony of any witness. Testimonial
summaries and pre-filed testimony should be filed no later than the last pre-
hearing conference or three business days before the witness is to testify,
whichever is later. Except for good cause, no witness will be allowed to testify on
direct examination concerning issues not reasonably identified in the pre-filed
testimony or testimonial summary.
11. All parties shall meet, confer and exchange all exhibits the party plans to offer in
evidence before the hearing or before they are referred to in testimony or offered
in evidence. The Applicant shall, and other parties may, provide one or more

1 three ring binders for the Chairman and each member of the Line Siting
2 Committee to hold exhibits at the beginning of the hearing and as needed during
3 the hearing. Each party shall prepare a numbered list of the exhibits and a copy of
4 all exhibits suitable for placement in the binders that have been exchanged with
5 the other parties that each party expects to offer in evidence at the hearing for the
6 Chairman and each Line Siting Committee member. The exhibits shall be
7 provided at the beginning of the hearing and during the hearing before reference
8 to the exhibit is made in the hearing. Except for good cause, no exhibit that was
9 not exchanged with the other parties shall be considered at the hearing. Any
10 exhibit to which reference is made during any hearing that is not offered or
11 admitted into evidence shall be provided to the court reporter at the evidentiary
12 hearing for inclusion in the record unless it is withdrawn, and the Chairman
13 determines its filing is not necessary to an understanding of the actions of the
14 Committee.

15 12. All exhibits shall be consecutively numbered with the Applicant's exhibits
16 denominated: HVS-1, HVS-2, etc. Each intervening party will be assigned by the
17 Chairman a letter or letters of the alphabet as a preface with which to
18 consecutively number its exhibits. For example, the Commission Staff will number
19 its exhibits: CC-1, CC-2, etc.

20 13. The Applicant may make an opening statement at the beginning of the hearing of
21 no more than thirty minutes. Each other party may make an opening statement of
22 no more than five minutes.

23 14. Public comment will be heard after the opening statements and at other times set
24 by the Chairman during the hearing. See ¶ 3, above.

25 15. In the event the Chairman determines that a tour is appropriate, the Applicant shall
26 arrange for transportation of any Committee Members who wish to attend a tour of
27 the locations where facilities proposed in the Application or similar facilities are
located. If a tour is held, it will begin at 8:00 a.m. on January 13, 2010. The
Applicant shall submit to the Chairman, for approval in advance of the hearing, a
schedule and protocol agreed to by all parties for the tour. If all parties do not
agree upon the schedule and protocol for the tour, the disagreements shall be
submitted to the Chairman for resolution. The protocol shall identify the tour route,
identify the location of any stops, and identify any witnesses who will accompany
the tour. Counsel may ask brief explanatory questions of the identified witness or
witnesses during the stops about the location, what can be seen from the location
of the stop and the relevance of the location or view to the Application in the
discretion of the Chairman. All witnesses who testify on the tour shall be sworn
before their testimony. All questions and answers shall be before a court reporter.
No testimony or discussion with or between Committee Members about the
Application or matters relating to the Application will take place, except on the
record before a court reporter at the designated stops. The protocol shall provide
for access to any testimony presented at stops on a tour to members of the public.

1 Members of the public who wish to attend the tour shall be encouraged to notify
2 the parties or the appropriate staff of the Arizona Corporation Commission in
3 advance of their intention to attend.

4 16. Parties may present their witnesses in panels where appropriate. A party that
5 intends to present witnesses in panels shall identify the members of any panel at
6 the time it files its witness summaries.

7 17. The Applicant shall make arrangements for the preparation of expedited court
8 reporter transcripts of all pre-application hearings, pre-hearing procedural hearings
9 and the evidentiary hearing, so that the transcripts are available for public
10 inspection within three working days after each hearing date, as required by
11 A.R.S. § 38-431.01(D) and § 40-360.04(C). In addition, the Applicant shall file a
12 certification with Commission Docket Control that it has provided a copy of the
13 transcripts to at least two public libraries identified in the certification that are in the
14 vicinity of the Application.

15 18. On or before the final pre-hearing procedural hearing set below, the Applicant
16 shall, and the other parties may, file proposed findings of fact, proposed
17 conclusions of law, the wording of any proposed Certificate of Environmental
18 Compatibility and the wording of any proposed conditions to the Certificate.

19 19. If the beginning of closing arguments and the Line Siting Committee's
20 deliberations are more than one week after the beginning of the hearing, the
21 parties shall meet and confer after the hearing begins and before closing
22 arguments concerning proposed findings of fact, proposed conclusions of law, a
23 proposed Certificate of Environmental Compatibility and the wording of any
24 proposed conditions to the Certificate. If the parties are able to agree upon part or
25 all of the proposed findings of fact, proposed conclusions of law, proposed forms
26 of a Certificate of Environmental Compatibility and proposed wording of conditions
27 to the Certificate, all that is agreed upon should be reduced to writing and filed with
Commission Docket Control. If the parties are not able to agree completely, the
Applicant shall, and all other parties may, file proposed findings of fact, proposed
conclusions of law, proposed wording of a Certificate of Environmental
Compatibility and proposed wording of conditions to the Certificate on the day
before the beginning of closing arguments and the Line Siting Committee's
deliberations.

20 20. If the Applicant or any other party proposes conditions based upon conditions
21 used in prior cases, each proposed condition from a prior case shall contain the
22 case number of the most recent prior Certificate of Environmental Compatibility
23 using the language approved by the Commission.

24 21. All witness summaries, proposed findings of fact, proposed conclusions of law,
25 proposed Certificates of Environmental Compatibility and proposed conditions of

1 Certificates, shall be filed with Commission Docket Control pursuant to A.A.C.
2 R14-3-204 and -205. If any documents that are filed are hand delivered during the
3 hearing, eleven copies shall be submitted to the Chairman for distribution to the
4 other Committee Members.

5 22. Within five business days after the hearing concludes and the Committee renders
6 its decision, the parties shall meet and confer in person or electronically to
7 determine if they can agree upon the final wording of a proposed Certificate of
8 Environmental Compatibility. If the parties can agree upon the final wording of a
9 proposed Certificate of Environmental Compatibility, the Applicant shall file
10 forthwith the agreed upon proposed Certificate of Environmental Compatibility to
11 the Chairman for signature. If the parties are not able to agree upon a proposed
12 form of Certificate of Environmental Compatibility, the Applicant shall file, and the
13 other parties may file, within ten days after the date of the decision of the
14 Committee, those portions of the proposed Certificate of Environmental
15 Compatibility upon which the parties agree. The Applicant also shall file, and any
16 other party also may file, its understanding of any disputed portions of the
17 proposed Certificate of Environmental Compatibility. All proposed forms of the
18 Certificate of Environmental Compatibility and any objections or proposed
19 revisions shall be filed with Docket Control of the Commission, and a copy shall be
20 hand delivered to the office of the Chairman at 1275 W. Washington, Phoenix,
21 Arizona. Objections or suggestions that are not timely filed shall be considered
22 waived. The copy of the proposed Certificate of Environmental Compatibility filed
23 by the Applicant and any proposed revisions filed by the parties that are served
24 upon the Chairman shall include an electronic file containing the wording of the
25 proposed language in a format compatible with Microsoft® Word word processing
26 program.

27 23. The Applicant and all other potential parties ("persons" within the meaning of
A.R.S. § 40-360(8) who intend to intervene or request to intervene pursuant to
A.R.S. § 40-360.05(A)) shall meet with the Chairman for a final pre-hearing
conference on January 4, 2010 beginning at 3:00 p.m. at the offices of the
Attorney General of Arizona, 1275 W. Washington, Phoenix, Arizona. Parties may
appear by telephone with the prior permission of the Chairman. At the final pre-
hearing conference, the Chairman will review with the parties:

Thank you, Marge!

Tara,

Here is the information I have on the selection of the Hampton Inn and Suites - Kingman as the hearing site for Case 151, the Hualapai Valley Solar Project. The Hampton Inn is one of the few facilities in the Kingman area that is large enough to hold the Siting Committee and public. In fact it is the only hotel in the Kingman area that has meeting space that is large enough to accommodate the Hearing. The only other facilities in Kingman of sufficient size are the High School Gym and the Community College Cafeteria, both of which are unavailable since school is in session. Therefore, the Hampton Inn provides the only option for the hearing at this time of year. The Hampton Inn quoted us a \$89/night government rate for the Committee's sleeping rooms should they choose to stay at the Hampton Inn. There are other facilities in the city that have lower rates. All of these are a driving distance of several miles from the Hampton Inn. If you would like information on those facilities, please let me know.

Hi Tara,

I hope all is well with you today. I want to be sure I send my intervention paperwork to the correct address. Also we have been inundated with citizens wanting to send their opinions in writing to the ACC. We of course have supplied them with the correct docket no. BUT, do they send their opinions to the same address as below? Do they need to send 25 copies of their opinions?

Docket Control Center of the ACC Phoenix Office
1200 West Washington Street, Suite 108
Phoenix AZ 85007

THANKS
Denise
