Re: Hualapai Valley Solar Project/Line Siting Committee

Dear Mr. Dong:

This firm represents the Arizona Building Trades Council (BTC), which is a consortium of the 17 major construction-related labor organizations, representing more than 10,000 construction trade workers such as Electricians, Ironworkers, Pipefitters, etc.

Developers and contractors across Arizona choose to partner with the BTC on private and public commercial and industrial projects large and small. We continue to provide quality and trained construction craftspeople in all trade areas to many of the state's largest contractors.

We are highly interested in discussing the upcoming solar power plant that Hualapai Valley Solar will be developing near Kingman, Arizona. We believe there may be opportunities going forward for us to work together more closely in delivering a finished product of the highest caliber that ensures Arizona's working families receive the benefit of your project for years to come.

Contractors in Arizona know that our workers can build their project from the ground up utilizing the highest skilled workmanship, a reliable and drug free labor force, on-time and on budget, and with work that's done right—the first time.

We plan to attend the Arizona Power Plant and Transmission Line Siting Committee for Case No. 151 in Kingman on January 12-14, 2010. Equally important, we would like to discuss intervening or providing a presentation for the record that highlights the benefits of Arizona's signatory contractors and working families.

TORRES CONSULTING AND LAW GROUP, LLC

I will also call your office to determine your availability to discuss the aforementioned matters. If you have any questions please do not hesitate to call me at (602) 626-8805.

Best regards,

Israel G. Torres
