Re: Motion to Intervene on Docket Control Number:  
L-00000NN-09-0541-00151  
Case No.: 151

Dear Commissioners:

I am an active member of the Northwest Arizona Watershed Council. I have been involved in research for our community and our group in relation to the effects the Hualapai Valley Solar project will have on our community and the future of our families.

Please accept this letter as my notice for a motion to intervene against the above docket number. After much review, I am deeply concerned over the parabolic trough concentrated Solar Thermal generating facility, called Hualapai Valley Solar. Some of the environmental concerns I see in this case are:

- 1) Ground water protection
- 2) Visual impacts of the "mirror's" that will be used.
- 3) Impact on the sensitive species and endangered species by use of the mirror's, and the cooling system.
- 4) Salt water contamination pond and its effects on wildlife.

I feel that this "for profit" concentrated Solar Thermal generating facility uses outdated technology, and plans to use large amounts of a non-renewable source of water. There is more clean and efficient renewable energy like wind and photo-voltaic. Lastly, they have not

addressed what affect this concentrated Solar Thermal generating facility will have on our fragile desert environment.

Therefore, as a concerned citizen of Mohave County, I respectfully request the privilege to intervene in the proceedings for Docket Control # L-00000NN-09-0541-015.

Sincerely Submitted,

Susan A. Moore – Bayer
