**Subject:** Az American Water

We want to thank you for voting for the increase in the water rates for all of us retired Seniors living in Sun City West. You and your fellow commissioners voted to increase the rates to the fullest that the water company was asking. Thank You. We are sure you will also increase the sewer rates next. Thank you again.

Do you ever wonder how we will pay for this. Now many of us have to ask ourselves, What do we pay first? Do we pay for water or our prescriptions? Do we pay for water or for food, do we pay for water or for APS, which you just voted to increase also.

We hope you sleep well at night. Would not want this to bother your sleeping and cause nightmares of seniors sweltering in the summer in hot houses or going without their prescriptions.

We hope you live well and never have to make these decisions. Remember we did not get a cost of living increase, we are all on Social Security and meager retirement. All our bills keep increasing but our paychecks do not.

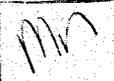

Please feel free to share this big Thank you with the other commissioners.

Have a Terrible Christmas and a worse New Year!!

Betty & Mike Grattino  
Sun City West Seniors
