Dear Commissioner Newman.

My Name is Arthur Prevost and I spoke at the far West meeting in Phoenix. I'm the one who said I did not trust Far West .

Because in my opinion they are not trust worthy.

.They are going after a delay again and that is their agenda to wear down the opposition and also to have the meetings in the summer

when most snowbirds have left .Bill Storey warned all of us this would be there tactics.

If this next lawyer does not succeed they will just fire him also and hire another until they succeed.

This is a waist of the commissioners time

All the petitions will be lost in the process and also the testimony..

I surely hope that does not happen ..

I know that you were very upset at Far West for there delaying tactics. As were the rest of us.

I urge you not to let them get away with those tactics . Enough Is Enough

I would surely appreciate if you would pass this E-Mail to the other commissioner. and Judge Rodda

Sincerely Arthur (Ron) Prevost
