Dear Mr. Blair,

I just received your last letter and piece of propaganda....and I'm furious!!

I don't get it---- and obviously neither do you.

In your letter you stated that "one of the key problems is the electrical demand while people are getting ready for school, work or opening up a business on cold winter mornings. If you haven't noticed, most of us are retired and don't get up at 6 or 7 a.m. There are only a handful of businesses here and most don't open until 10 or 11. There aren't that many families with children going to school!!!...so what you're saying makes absolutely no sense at all.

Another thing....you stated 80-180 outages...The electric flickering for a moment DOES NOT COUNT as an outage.

By the way- did your independent group have a chance to visit our area? Did they speak to anyone outside of SSVEC? Was this all One-Sided?

I am so disappointed that you are willing to destroy our beautiful countryside with more poles, when there are other choices.

We still do not know the cost comparison. It seems to me that sometimes it makes more sense to spend a little more to SAVE OUR ENVIRONMENT.
