This is a follow up letter from M and R Auto Salvage. I, along with my partner, Dennis Mckeown from a business stand point also fully support SSVEC in their endeavor to build a 69 kv line from Sonoita to Mustang Corners.

This E mail is being sent in support of SSVEC installing a new 69KV line from s Sonoita to Mustang corners. After reading the information available from SSVEC and opposing views thru the paper , it seems that the ACC is listening to the minority. As a customer for over 40 years, I see no reason for the delay of this line. The longer the delay the more it costs me as a shareholder. Everything that SSVEC has been asked to do indicate there is no reason for delaying this project. Please support SSVEC on this matter so that it can continue its outstanding service to its customers.

Sincerly, Brian D Root
