RE: Docket Nos. W-01303A-09-0343 and SW-01303A-09-0343

The board for the Kelron Condominium Association in Sun City is writing on behalf of our residents. We have 44 homes in our association with a large number of residents in their eighties and ninety's. They have been retired and/or widowed for more years than they care to think about.

With all the increases from medical costs and other utilities and no increase in Social Security this year, there simply isn't any money left in their budgets for another increase. Our association has been very frugal with water usage as we try to keep monthly cost manageable for our residents. If the requested increases from Arizona-America Water Company, Inc. were approved, it would be detrimental to our residents. There is nothing wrong with the water in Sun City and we shouldn't be put in the situation of having to clean up and pay for problems and water usage in other areas of the state.

Please, let the water company officials do what our residents are having to do in this economy -- "learning to live with the budget they have at the present time."

Sincerely,

T. Robert Martin, President
