Subject: Water

Sandra Kennedy and Paul Newman,

Since I voted for both of you I am asking you both for your help with the water increases and changes proposed.

As a Sun City resident and on the government's Social Security as my sole income I am asking you to take us into consideration as the water issues are coming up. I personally think the increase being asked for is very out of reach for most of us on Social Security and bundling with the city of Anthem is ridiculous!! Why should I have to take on another cities water use?? I am so conservative in water used and do not want to pay for anyone else's usage. I hope you are on out side!! thank you, Jean Crawford 13063 North 100th Avenue Sun City, Az 85351
