Re: Little Park Water Company, Inc. Docket No. W-02192A-09-0531

Gentlemen:

We are residents in the operating territory of the Little Park Water Company, Inc. (which represents approximately 70 customers) and we have been made aware of the rate filing referenced above that will increase our monthly cost substantially.

We understand the need for increased funding is driven by capital infrastructure improvements and general operating cost increases. As pointed out in the notification from Little Park Water Company, this is approximately a 112% increase, which is quite excessive even when the economy is prospering. In light of the current economic conditions, we urge the commission to look for alternative means of managing recovery for these costs. At a minimum, capital recovery could be extended for a longer period of time to minimize the immediate increase. Please review your current operating expenses to identify reductions or alternatives.

Too often these one time investments turn into ongoing charges that are not managed and there is no relief to customers. We will continue to watch the progress of this rate request review and will look forward to creative means being applied to minimize immediate and ongoing cost impact.
