Hi Paul,

Hope to see you this Wednesday. I will be asking you and the commission to vote against the rate increase for Liberty Water. Rio Rico residents are struggling economical. The Mexico drug wars have impact our area greatly scaring tourist away. No one that I know of has had a wage increase, so how can we cut back, there nothing left to cut to meet such an increase. This increase would mean less purchases at restaurants, McDonald's, groceries, entertainment, etc. Liberty Water did not provide me with any information as to why the increase is warranted. I went to their office. All I received was a notice of the meeting. Please vote no. Your familiar with the area, we are struggling economically.

Cordially,

Bob Canchola
