Subject: SSVEC meeting at Elgin/Sonoita School on 11 march 2010

SSVEC conducted a meeting at the Elgin School last night and I was unable to attend as I had a prior meeting out of town. However, I want to ensure that my thoughts and comments are included so I am writing this email. I have communicated this information to SSVEC's management via email but want to ensure that it is also brought to the attention of the ACC.

I am not in favor of the 69kV line being installed. I am not convinced that it is required and am not in favor of permanently damaging our vistas and wildlife. Instead I would be supportive of any efforts SSVEC may implement to use alternative energy generated at the point of need rather than long distances from the member. Energy generated at the point of need eliminates the requirement for ugly, dangerous and unreliable power lines.

Thank you for your consideration.

Subject: Jack Blair email to SSVEC Employees in Docket

Dear Chairman Mayes and Commissioners,
I have attached an email that is in Docket E-01575A-08-0328 for the SSVEC Rate Re-Hearing, from Jack Blair to all SSVEC employees dated on Jan, 22.

This may explain the flood of emails to the Docket after that edict, and I recognize a lot of them as SSVEC Employees.

I think this is rather unscrupulous, actions not befitting a "cooperative". - or even a for profit company - taking actions against a segment of it's constituents.

Is this a legal activity? Against a Code of Ethics? I feel it is unfair for SSVEC to put it's employees in a position to write letters like this. If they don't write a letter are they going to have problems with management?

Also, the letter has untruths and leading information to rile up their employees to look unfavorably on our community and the ACC.

Respectfully submitted,
