COX ARIZONA TELCOM, LLC,

Respondent.

**JOINT NOTICE OF
COMPLIANCE FILING**

Cox Arizona Telcom, LLC and Qwest Corporation, through undersigned counsel, hereby file the joint MDU audit report in compliance with Decision No. 70664.

Due to the voluminous nature of the before and after photographs taken of the 20 randomly selected MDU terminals, a color copy and a CD of the photographs are being provided to Staff under separate cover.

RESPECTFULLY SUBMITTED this 19th day of March 2010.

COX ARIZONA TELCOM, LLC.

Joint Audit Report

Cox Arizona Telcom, L.L.C. and Qwest Corporation
Docket Nos. T-03471A-06-0045 and T-01051B-06-0045.

In Decision No. 70664 (December 24, 2008), the Commission ordered Cox and Qwest to perform a joint audit of 20 randomly selected MDU terminals. Specifically, it was ordered that:

[B]etween 12 months and 15 months from the effective date of this Decision, after receiving notice of the 20 multi-tenant environment terminals selected at random by Commission Utilities Division Staff, Qwest and Cox shall jointly perform an audit of the 20 multi-tenant environment terminals, including the taking of “before” and “after” digital photos, to ensure that Cox field personnel are continuing to comply with the requirements of the New ICA Amendment and shall file with the Commission’s Docket Control, as a compliance item in this Docket, within 30 days after the random audit is completed, a report describing the results of the random audit and including the photos taken.

On February 2nd and 3rd, 2010, representatives of both Cox and Qwest conducted a joint audit of the 20 randomly selected MDU terminals selected by Commission Staff. Participating Cox representatives were Frank Lyall - Director of Field Operations, Tommy Lassiter - Manager of Field Services and Frank Pike - Supervisor of Field Services. Participating Qwest representatives were Rachel Torrence, Director Legal Issues – Network and Andrew Sotero, Curtis Orvis and Tommy Treviso, all Supervisors in Qwest’s Network Operations. In conducting the joint audit, Qwest prepared a checklist of issues that encompassed the key issues that were examined during the original Cox audit of MDU properties. Cox and Qwest prepared a final matrix that covers each of the 20 MDU terminals. The matrix included company-specific comments, if any, for each MDU terminal. A copy of the final matrix is attached to this compliance filing as Exhibit A. Due to the voluminous nature of the before and after photographs related to the audit, copies of the photographs have been submitted to Commission staff under separate cover.

Nineteen of the twenty terminals unquestionably displayed proper installation methods and met the checklist requirements. One of the 20 MDU terminals inspected had a questionable grounding issue. Qwest believes that Cox attached to a Qwest ground and Cox asserts that it was unclear whether the ground belonged to Qwest. Cox, nevertheless, removed and reconfigured the ground.

	Location	Terminal Access		Subloop Access			Grounding		Comments	
		No improper access of terminal or wallbox	Terminal properly sealed after access	Separate terminal blocks	Proper Disconnection Of Qwest facilities	Standard Attachments To subloop facilities	No attachment To Qwest Grounding Facilities	Comply With NESC and Technical Specs	Qwest	Cox
