TARIFF FORMAT

- A. **Sheet Numbering** – Sheet numbers appear in the upper right corner of the sheet. Sheets are numbered sequentially. However, occasionally, when a new sheet is added between sheets already in effect, a decimal is added. For example, a new sheet added between sheets 14 and 15 would be 14.1.
- B. **Sheet Revision Numbers** – Revision numbers also appear in the upper right corner of each sheet. These numbers are used to determine the most current sheet version on file with the Commission. For example, the 4th revised Sheet 14 cancels the 3rd Revised Sheet 14. Because of various suspension periods, deferrals, etc. the Commission follows in their tariff approval process, the most current sheet number on file with the Commission is not always the sheet in effect. Consult the Check Sheet for the sheet currently in effect.
- C. **Paragraph Numbering Sequence** – There are four levels of paragraph coding. Each level of code is subservient to its next higher level:
- 2.
 - 2.1.
 - 2.1.1.
 - 2.1.1.1.
- D. **Check Sheets** – When a tariff filing is made with the Commission, an updated Check Sheet accompanies the tariff filing. The Check Sheet lists the sheets contained in the tariff with a cross-reference to the current revision number. When new sheets are added, the Check Sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (*). There will be no other symbols used on this sheet if these are the only changes made to it (i.e., the format, etc., remains the same, just revised revision levels on some sheets). The Tariff user should refer to the latest Check Sheet to find if a particular sheet is the most current on file with the Commission.

Regulatory Action

Since Applicant's incorporation in late 2004, the Company has been the subject of a single regulatory action in Iowa. This action resulted from third party verification provider misapplication of Company-established procedures that had raised questions regarding the Company's compliance with Iowa unauthorized account transfer regulations.

On August 28, 2009, the Iowa Utilities Board found Applicant had committed cramming by failing to provide a valid Third Party Verification (TPV) in File No. C-2009-0172. Staff analyzed the TPV provided by the Company and concluded that there was a discrepancy because Complainant's statements and those of the verifier did not appear to coincide. Applicant fully refunded complainant's payments and returned complainant to the former provider. Although Applicant disputed staff's findings and a subsequent Iowa Office of Consumer Advocate (OCA) Petition for Civil Penalties based on those findings, Applicant entered into a voluntary Settlement Agreement with the OCA, approved by the Board on December 30, 2009. Under the Settlement Agreement, Applicant consented to a civil penalty of \$2,500.00 payable to the Iowa Utilities Board, and provision of verification procedures and confirmation of their implementation to OCA, without admission of wrong doing or violation of Board rules.

Applicant does not engaging in, or in any way condones, the practice of "slamming." Applicant complies with federal slamming regulations in 47 C.F.R. §1100 *et. seq.*, Changes in Preferred Telecommunications Service Providers, and applicable state law and regulation. Applicant has taken additional steps to ensure that its account transfer and verification procedures, and those of its independent verifiers guard against the unauthorized transfer of accounts.

A copy of the Settlement Agreement with the OCA is attached.
