Aggregator - Any person or other legal entity that may be a Customer and, in the ordinary course of its operations, makes telephones available to the public or to transient users of its premises, for telephone calls using a provider of operator services.

Agency Coordination - Agency Coordination are the functions performed by the Company acting as the customer's agent for the design, ordering, installation, pre-service testing and service turn-up of an Access Local Loop. When acting as the Customer's agent, the Company will design the service based on standard engineering considerations. These considerations may not produce a minimum price configuration.

Authorization Code - A pre-defined series of numbers to be dialed by the Customer upon access to the Company's system to identify the caller and validate the caller's authorization to use the services provided and to identify the Customer for billing purposes. An example of an Authorization Code is a calling card account number and personal identification number.

Business Customer - For the purpose of this tariff, a Business Customer is a Customer of the Company whose primary use of the Company's service is for business purposes. Commission - The Arizona Corporation Commission.

Company - New Communications Online and Long Distance Inc., unless stated otherwise.

Company's Point of Presence - Location of the serving central office associated with access to the Company's or its underlying carrier's network.

Customer - Any person, firm, partnership, corporation or other entity which subscribes to or uses service under the terms and conditions of this tariff. The Customer is responsible for the payment of charges for service offered by the Company which are subscribed to or used by the Customer. SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)**2.7 Taxes and Fees, (Cont'd.)****2.7.1 Pay Telephone Surcharge, (Cont'd.)**

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and other interexchange carriers. The Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (i.e., using the "#" symbol).

Whenever possible, the Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. The Customer is responsible for all costs at his or her premises, including personnel, wiring, electrical power, and the like, incurred in the use of the Company's service. When such terminal equipment is used, the equipment shall comply with applicable rules and regulations of the Federal Communications Commission, including, but not limited to, Part 68. In addition, equipment must comply with generally accepted minimum protective criteria standards and engineering requirements of the telecommunications industry which are not barred by the Federal Communications Commission.

2.9 Installation

No installation at the Customer's premises is required to use the Company's service. Service is initiated by request of the Customer. The Company may refuse to provision service when the Company cannot verify that the party requesting the Company's service is authorized to request or to change service.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

2.10 Payment for Service

- 2.10.1** Service is provided and billed on a monthly basis. Bills are due and payable upon receipt. Late payment fees for Customers who have their charges billed by an affiliated local exchange company will be the late payment fee applied by the affiliated local exchange company to overdue charges. Customers that are not billed by an affiliated local exchange company may be charged a late payment fee of 1.5% per month, or the maximum amount allowed by law, whichever is lower. The late payment fee will apply to any overdue charges and will begin to accrue no sooner than the 25th day after the billing date or as allowed by law. In the event that the Company incurs fees or expenses, including attorney's fees, collecting, or attempting to collect, any charges owed to the Company, the Company may charge the Customer, and the Customer will pay, all such fees and expenses reasonably incurred. Collection fees on overdue charges apply in addition to all applicable late payment charges and shall begin to accrue when the Account is assigned to an outside collection agency.
- 2.10.2** The Customer is responsible for payment of all charges for service furnished to or used by the Customer, or the Customer's agents, servants, employees or customers. The Customer is also responsible for payment of charges for a third person's use of service to which the Customer subscribes. All charges due from the Customer are payable to the Company or to the Company's authorized billing agent. Any objections to billed charges must be reported to the Company or its billing agent within six months after receipt of bill. Adjustments to the Customer's bill shall be made to the extent that circumstances exist which reasonably indicate that such changes are appropriate.
- 2.10.3** The security of the Customer's Authorization Codes is the responsibility of the Customer. All calls placed using such Authorization Codes shall be billed to and shall be the obligation of the Customer. The Customer is responsible for all calls placed via their Authorization Code, whether such use is as a result of the Customer's intentional or negligent disclosure of the Authorization Code or otherwise. However, the Customer shall not be responsible for charges in connection with the unauthorized use of Authorization Codes arising after the Customer notifies the Company of the loss, theft, or other breach of security of such Authorization Codes.
- 2.10.4** The Company reserves the right to assess a charge of \$20.00, or the maximum amount allowed by law, whenever a check or draft presented for payment of service is not accepted by the institution upon which it is written.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)**2.10 Payment for Service, (Cont'd.)**

2.10.5 The Customer shall be responsible for all calls placed by or through Customer's equipment by any person. In particular and without limitation to the foregoing, the Customer is responsible for any calls placed by or through the Customer's equipment via any remote access features.

2.10.6 Duplicate Bill Charge

A Residential Customer who requests a reprint of their monthly long distance bill that is older than six months and whose long distance charges are billed by an affiliated local exchange company will be assessed the charge applied by the affiliated local exchange company.

2.11 Deposits

2.11.1 The Company reserves the right to examine the credit record of the Customer, using any lawful sources for determining credit standing. If the Customer's financial condition is unknown or unacceptable to the Company, the Customer may be required to provide the Company with a security deposit which the Company may apply against overdue charges. The amount of the security deposit shall be equal to two months' estimated usage but may vary with the Customer's credit history and projected usage. The Customer shall be apprised that after one year of service the account shall be reviewed, and in the event that all amounts due have been paid within the terms and conditions of this tariff, the deposit shall be refunded in full. If subsequent payment or usage patterns change, the Company may request an increase in or resubmission of the security deposit as appropriate. The Company may also require a security deposit before service is restored (along with the payment of overdue charges) from the Customer whose service has been discontinued for nonpayment of overdue charges. Such security deposit may be based on a new credit history (taking into account the discontinuance of service) and estimates of usage.

2.11.2 The fact that a security deposit has been made in no way relieves the Customer from the prompt payment of bills upon presentation.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)**2.12 Advance Payments**

The Company reserves the right to require an advance payment from the Customer instead of or in addition to a security deposit. The advance payment shall be in an amount equal to or less than estimated installation charges plus two months' estimated billing.

2.13 Interruption of Service

Credit allowances for interruptions of service which are not due to the Company's testing or adjusting, to the negligence or other wrongful act or omission of the Customer, or to the failure of channels, equipment and/or communications systems provided by the Customer, are subject to the general liability provisions set forth in this tariff. It shall be the obligation of the Customer to notify the Company immediately of any interruption in service for which a credit allowance is desired by the Customer. Before giving such notice, the Customer shall ascertain that the trouble is not within his or her control, or is not in wiring or equipment, if any, furnished by the Customer. Interruptions caused by Customer-provided, or Company-provided automatic dialing equipment are not deemed an interruption of service as defined herein since the Customer has the option of using the long distance network via LEC access. For purposes of credit computation, every month shall be considered to have 30 days and every day 24 hours. For all Company services no credit shall be allowed for an interruption of continuous duration of less than twenty-four hours. For services billed on a usage basis, credits will be limited to, at maximum, the price of the call that was in progress at the time of the service interruption.

The Customer shall pay such bills in full in accordance with the payment terms of this tariff.

2.14.1 Service may be suspended by the Company, without notice to the Customer, by blocking traffic to certain cities or NXX exchanges when the Company deems it necessary to take such action to prevent unlawful use of its service. The Company will restore services as soon as it can be provided without undue risk.

Cancellation of service for nonpayment is subject to early termination liability obligations set forth in this tariff.
- B.** For returned checks: The Customer whose check or draft is returned unpaid for any reason, after two attempts at collection, shall be subject to refusal, suspension or cancellation of service in the same manner as provided for nonpayment of overdue charges.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)**2.14 Cancellation and Restoration of Service, (Cont'd.)****2.14.3 Refusal, Suspension or Cancellation by the Company, (Cont'd.)**

- D. For violation of law or this tariff: Except as provided elsewhere in this tariff, the Company may refuse, suspend or cancel service, without notice, for any violation of terms of this tariff, for any violation of any law, rule, regulation, order, decree or policy of any government authority of competent jurisdiction, or by reason of any order or decision of a court or other government authority having jurisdiction which prohibits the Company from furnishing such service or prohibits the Customer from subscribing to, using, or paying for such service.

- F. For unauthorized or unlawful use of Authorization Codes: Authorization Codes are issued by the Company only to the Customer and may not be sold or otherwise distributed without the written consent of the Company. Any unauthorized or unlawful use of such numbers or Authorization Codes shall result in the immediate refusal, suspension or cancellation of service without notice.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)**2.14 Cancellation and Restoration of Service, (Cont'd.)****2.14.4 Notice of Discontinuance**

The Company may refuse or discontinue service under the following conditions provided that, unless otherwise stated in this tariff, the Customer shall be given 15 days notice to comply with any rule or remedy any deficiency:

- A. For use of telephone service for any purpose other than that described in the application.
- B. For neglect or refusal to provide reasonable access to the Company or its agents for the purpose of inspection and maintenance of equipment owned by the Company or its agents.

- D. Without notice in the event of tampering with the equipment or services owned by the Company or its agents.

Whenever service is discontinued for fraudulent use of service, the Company may, before restoring service, require the Customer to make, at his or her own expense, all changes in facilities or equipment necessary to eliminate illegal use and to pay an amount reasonably estimated as the loss in revenues resulting from such fraudulent use.

2.14.5 Restoration of Service

If service has been discontinued for nonpayment or as otherwise provided herein and the Customer wishes it continued, service shall, at the Company's discretion, be restored when all past due amounts are paid or the event giving rise to the discontinuance (if other than nonpayment) is corrected.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)**2.15 Application for Service**

The Company reserves the right to require Customers to make application(s) for service in writing using forms provided by the Company. Upon acceptance of an application for service by the Company, all applicable provisions in the Company's tariffs, as amended from time-to-time which are lawfully on file, become the agreement for service between the Company and the Customer. Requests for additional service and changes to service, upon acceptance by the Company, become a part of the agreement for service, provided that each item of additional service shall be subject to the applicable minimum term of service. Acceptance or use of service offered by the Company shall be deemed an application for such service and an agreement by the Customer to subscribe to, use, and pay for such service in accordance with the applicable tariffs of the Company, as amended from time to time, which are lawfully on file. Any change in rates or other tariff provisions which are lawfully made shall be deemed to modify all agreements for service affected by such changes without further notice by Company to the Customer. Customer provision of false information or a failure by the Customer to provide material information in an application for service, either written or verbal, shall be deemed an attempt to avoid payment or to otherwise defraud the Company. In such instances, the Company may terminate, suspend, or refuse service in accordance with this tariff without further obligation or liability to the Customer.

2.16 Interconnection

2.16.1 Service furnished by the Company may be interconnected with services or facilities of other authorized communications common carriers and with private systems, subject to technical limitations established by the Company. Service furnished by the Company is not part of a joint undertaking with such other common carriers or systems. The Company does not undertake to provide any special facilities, equipment, or services to enable the Customer to interconnect the facilities or the equipment of the Company with services or facilities of other common carriers or with private systems.

2.16.2 Interconnection with the services or facilities of other common carriers shall be under the applicable terms and conditions of this tariff and the other common carrier's tariffs.

SECTION 2 - TERMS AND CONDITIONS, (Cont'd.)

2.16 Interconnection, (Cont'd.)

If this written notice fails to eliminate the actual or potential harm, the Company may, upon written notice, terminate the existing service of the Customer.

2.17 Inspection, Testing and Adjustment

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (Cont'd.)**3.2 Calculation of Distance**

Usage charges for all mileage sensitive services are based on the airline distance between the rate center locations associated with the originating and terminating points of the call.

The distance between the originating and terminating points is calculated by using the "V" and "H" coordinates of the applicable rate centers as defined by Telecordia (formerly Bellcore) and on file with the FCC in AT&T FCC Tariff No. 20, in the following manner:

Step 1 - Obtain the "V" and "H" coordinates for the rate center of the originating and the destination points.

Step 2 - Obtain the difference between the "V" coordinates of each of the rate centers. Obtain the difference between the "H" coordinates.

Step 3 - Square the differences obtained in Step 2.

Step 4 - Add the squares of the "V" difference and "H" difference obtained in Step 3.

Step 5 - Divide the sum of the square obtained in Step 4 by ten (10). Round to the next higher whole number if any fraction results from the division.

Step 6 - Obtain the square root of the whole number obtained in Step 5. Round to the next higher whole number if any fraction is obtained. This is the distance between the originating and terminating rate centers of the call.

Formula:
$$\sqrt{\frac{|V_1 - V_2|^2 + |H_1 - H_2|^2}{10}}$$

SECTION 3 - DESCRIPTION OF SERVICE AND RATES, (Cont'd.)**3.3 Timing of Calls**

Billing for calls placed over the network is based in part on the duration of the call.

- 3.3.1 Timing for all calls begins when the called party answers the call (i.e. when two way communications are established). Answer detection is based on standard industry answer detection methods, including hardware and software answer detection.
- 3.3.2 Chargeable time for all station-to-station calls begins when connection is established between calling party and the called party and ends when the calling party hangs up thereby releasing the network connection. If the called party hangs up but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the network, or by an operator.
- 3.3.3 Minimum call duration for billing purposes is one minute unless otherwise specified in the individual rate schedules of this tariff.
- 3.3.4 Calls are measured and billed in one minute increments unless otherwise indicated in this tariff. Any partial minute is rounded up to a full minute.
- 3.3.5 No charges apply to incomplete calls.
- 3.3.6 Usage charges are computed on a per call basis. When computation of call charges result in fractional cents, the resulting charge is rounded to the nearest penny.

SECTION 4 - MISCELLANEOUS SERVICES, (Cont'd.)**4.3 Toll Free Services, (Cont'd.)****4.3.3 Residential Personal Toll Free Number**

Effective March 20, 2010, Residential Personal Toll Free Number will be grandfathered and will no longer be available to new residential Customers.

A. General Description

Residential Personal Toll Free Number is a toll free service that provides a telephone number for Residential Customers to receive calls. Residential Personal Toll Free Number is available to Customers with lines presubscribed to the Company's service. This service allows presubscribed Customers to pay for incoming calls made to a personal toll free number. Incoming calls to that toll free number terminate at a telephone number designated by the Customer, subject to limitations indicated below.

Residential Personal Toll Free Number calls can originate from all intrastate locations, including locations that are jurisdictionally local to the originating exchange. Residential Personal Toll Free Number call termination is available to all domestic locations served by the Company. The Customer-designated termination number may be any valid telephone number except numbers designated by the North American Numbering Plan as toll free (800, 888, 877, etc.), 500, 700, 900, 976, public or semi-public pay telephone numbers and directory assistance (411 and NPA-555-1212) numbers.

Residential Personal Toll Free Number is free to the calling party. All charges are billed to the Residential Personal Toll Free Number Customer, based on the per minute usage rate indicated below. A Monthly Recurring Charge applies to each account subscribed to Residential Personal Toll Free Number, in addition to the applicable usage charges and per call charges specified below.

The Residential Customer who discontinues the Company's presubscribed service, or whose service is discontinued by the Company in accordance with the provisions in this tariff, will also discontinue, or have discontinued by the Company, their Residential Personal Toll Free Number option.

SECTION 4 - MISCELLANEOUS SERVICES, (Cont'd.)**4.3 Toll Free Services, (Cont'd.)****4.3.3 Residential Personal Toll Free Number, (Cont'd.)****B. Basic Option**

To call the Customer's designated terminating number, the Customer must dial the Company-designated toll free (800, 888, 877, etc.) terminating number and 4-digit Personal Identification Number (PIN) that has been assigned to the Customer's presubscribed residential telephone number. Subsequent to the initial establishment of the account, the Customer may change the termination number to an alternate telephone number. Because Residential Personal Toll Free Number Customers share access on the same toll free access number based on PIN, use of the toll free number may be lost if service is terminated. Customers may have multiple toll free numbers per account. Call detail is available on the Customer's monthly statement at not additional charge.

Calls will be billed in one (1) minute increments after an initial minimum call duration of one (1) minute. Any partial minute will be rounded up to the next full minute. Residential Personal Toll Free Number may not be assigned or transferred for use with service provided by another carrier.

Distinctive Ring and Area Code Selection are not available with Residential Personal Toll Free Number. Customers must have touch-tone dialing to complete the toll free call. Minimum Service period for Residential Personal Toll Free Number is one month.

C. Plus Option *

Plus Option allows Customers to have calls routed to up to ten (10) different terminating numbers, using a single toll free number. The first terminating location defaults to the Customer's presubscribed telephone number. The Customer can specify the terminating numbers associated with each of the Residential Personal Toll Free Number Plus 4-digit PINs.

* The Plus Option is not available to new Customers.

SECTION 6 - OBSOLETE SERVICE OFFERINGS, (Cont'd.)**6.1 Business/Residence Line Toll Free Service**

Business/Residence Line Toll Free Service provides for the termination of inbound toll-free calls to one-party exchange access lines. The minimum service period for Business/Residence Line Toll Free Service is one day.

6.1.1 Toll Free Number Assignment

Toll Free Number Assignment provides for the assignment of a single ten digit toll free number (i.e. 800-XXX-XXXX). Toll Free Number Service allows for but does not require the Toll Free Service Customer to use one toll free number. Toll Free Number Service can be selected for an area by specifying the desired area of service, as described in (B) following. The assigned toll free number will terminate to an exchange access line.

6.1.2 Area of Service

Area of Service defines the geographic location from which the Toll Free Number Service customer desires to accept calls for a given Toll Free number. An exchange access line is required for termination of Toll Free Number Service traffic. The desired Area of Service must be specified by Customer at the time Business/Residence Line Toll Free Service is ordered.

6.1.3 Variable Call Destination

The Variable Call Destination feature provides for multiple terminations of Business/Residence Line Toll Free Service when Customer specifies an Area of Service. This allows for the assignment of one toll free number with termination to an exchange access line.

SECTION 6 -OBSOLETE SERVICE OFFERINGS, (Cont'd.)**6.1 Business/Residence Line Toll Free Service, (Cont'd.)****6.1.4 Determining Usage Charges**

Monthly usage charges are calculated separately for each exchange access line termination. There is a minimum usage charge based on the average completed call of 30 seconds per completed call for each billing period for each rate period. Therefore, if the average duration of all such calls is less than 30 seconds, the total use equals the number of calls multiplied by 30 seconds. Usage charges apply as follows:

- A. For each exchange access line termination of a given toll free number, the total chargeable hours for each rate period for each termination is the greater of (a) or (b) following, rounded up to the nearest tenth.
 - 1. Determine the total actual Business/Residence Line Toll Free Service hours associated with a given toll free number and exchange access line for each rate period (chargeable time for each call) or;
 - 2. Determine the total equivalent hours associated with a given toll free number for the exchange access line termination used for each rate period by applying the minimum average time requirement of 30 seconds per call (1 call X 30 seconds).
- B. Using the total chargeable hours per rate period determined in 1. preceding and the table of hourly rates, multiply the hourly rates(s) in the appropriate usage tier by the number of hours used in each usage tier. The total charge is the sum of all the usage.
- C. The charges for a fractional part of a month will be a proportionate part of the monthly recurring charge based on the actual number of days service is provided, plus the usage charges applicable for that month. Every month is considered to have 30 days.

At the Residential Customer's option, the Residential Customer will also be notified of the available balance for calling at the end of each call.
