TIMBER KNOLL HOMEOWNERS' ASSOC. INC. DBA TK WATER SERVICE

P O BOX 200

VERNON, AZ 85940

April 15, 2010

Docket No: W-01902A-09-0293  
W-01902A-10-0082

EXCEPTIONS TO EMAIL FROM T. MEETER: received April 13, 2010

New language on Curtailment of Tariff. I checked the website and this is a legal document which I signed and filed on behalf of TK Water. I do not believe I should add new language to this form.

Nancy Scott stated an email from Tom Lord would suffice for the interconnection. Mr. Lord informs me that staff of Arizona Corporation Committee have already called and confirmed the interconnection .

In September, 1981 the Arizona Corporation Commission stated that TK Water had adequate water with 1 x 2000gal storage tank to supply a potential of 52 customers. As of today, April 15, 2010 we still have only the potential of 52 customers BUT we now have a 10,000gal storage tank. This is a huge contradiction on the part of your Staff. At the Annual meeting in July, 2009 the members/customers elected a Board to make decisions for and on behalf of the members.. We held an emergency meeting on February 11, 2010 to discuss adding an extra 10,000gal storage tank. The Board voted unanimously against adding additional storage. Apparently a Board decision is not acceptable to your staff. Now you are requesting a petition of all our members. I am in the process of getting the petition out to our members but it takes time, money and energy.

As a final statement we wish to say that this process has been "1 step forward and 3 steps back" since Charles Myhlhousen retired in November.

Carol Judd

Secretary, TK Water Service

Arizona Corporation Commission
