DOCKETED BY 

To Whom It May Concern:

I am a customer of Granite Mountain Water Company. The reason I am a customer is that after the company drilled the well, most of my neighbor's wells went dry. Many of them elected to re-drill. My closest neighbor and I elected to hook up to the company. At \$12000, it was cheaper than drilling more than 600 feet, which is the depth of their well. In today's economy when all of us are having a hard time making ends meet I don't know how the company can justify increasing its water rates. Better to have paying customers than no customers. We have already lost quite a few neighbors to the economy. I, myself, am having difficulty staying out of bankruptcy; Presently, I am not.

In summary, I am filing a motion to intervene and protest the increase of the water rates.

Yours truly:
Gary Fujinami
