<MSG>Senator Kyle,

I'm writing in regards to the Anthem Water Dispute.
I'm asking you to fight for our little city.
I'm very concerned that a rate hike may be destined for Anthem once again.

It's been a very tough year as it has been for most people. I've been hanging to my job by a thread. My company has laid off several people. Our incomes have decreased.

I have two properties in Anthem that I will most certainly lose if this proposal should go forward.

My current water bills: One property to which no one has lived in, the bill is at 125.00 per month for water the next property which I live in is 138.00 (I am the only person in the home and I'm rarely home)if the rate shoulddouble there is no way that I can afford it. In addition our HOA's and Clubs will most certainly go up. I currently have one of my homes on the market to rent, and had a interested renter but due to the proposed increased they opted not to live in Anthem. (this just happened last weekend)

I would have never have moved to Anthem had I known that this would occur. At this point I'm in fear that I will lose both of my homes. The sad thing about all of this, none of this is due to financial mismanagement.

Please fight for us. We need your help.

Best Regards,
Colleen Power</MSG>
