RE: *W-02467A-09-0334*
Docket #W-02467A-09-0333 et al
Gary Fujinami
7280 Racetrack Rd.
Prescott, AZ 86305

To Whom It May Concern:

In response to the captioned request to intervene, I have no objection to but I would like to briefly respond. Granite Mountain Water Company accommodated Mr. Fujinami's request to extended lines to him. We appreciate having him as a customer.

Granite Mountain drilled well #4 and put it in service in approximately April of 1996. The well was drilled to a depth of 500 feet. Mr. Fujinami hooked up to the system in approximately August of 2006, ten years later. Granite Mountain's current rate tariff has not been revised since December 1, 1994, therefore Mr. Fujinami's water rates have remained the same since he become a customer and was the same for 12 years before some as long as 40 years ago.

Many of the wells in the area were drilled many years ago when the water table was less than 150 ft below the surface. Since that time the water table has been over drawn not necessarily by Granite Mountain Water Company but by everyone taking from the aquifer. As of March 16th, 2010 the Arizona Department of Water Resources advised that our current water level in the well is 226.1 feet. We regret that a number of shallow wells have gone dry but the cost of water production still continues to increase. We plan to assist in the conservation of water to protect the aquifer and to provide water and good services.

Respectfully,

Paul D. Levie, President
Granite Mountain Water Company

Cc: Gary Fujinami
