Why are you even considering consolidating Sun City with all these other communities? What in the world have we done to deserve that. There is no way the Sun City community can afford a 68.23% water rate increase and a 140.83 % wastewater rate increase, that is just plain rude and awful. We live in a condo, and our water bill and sewer is one overcharge on our condo fees at the present, we are always trying to figure out ways to cut back on water usage, if we have to raise our condo fees because of this outrageous increase, we will definitely loose homeowners and it certainly will make it hard to sell our condo. Now does that make sense to you people, sure you will get your money that is owed you eventually. We certainly hope you can go to bed and sleep well and not think about what you are doing to this retirement community.

We will be at the meeting on Monday evening May 17th.
